

How to manage your account

July 2020

We have recently made changes to mySRA, we have made it simpler to navigate and easier to update your details and complete applications. Many of the PDF versions of forms are now available in mySRA as Individual or Organisation applications.

Your account profile and applications

In your mySRA account you can access and pay for your individual applications if you are a solicitor, trainee or other individual at a firm or organisation. You can also amend your profile and work details.

You can also manage your organisation applications and receive notifications on its behalf if you are authorised as an Organisational Contact (ORC) or Authorised Signatory (AUS).
